

Grayscale and density test

Use this to judge toner density and whether light tones drop out.

2% steps from white to black: count how many steps you can still tell apart

0	2	4	6	8	10	12	14	16	18
20	22	24	26	28	30	32	34	36	38
40	42	44	46	48	50	52	54	56	58
60	62	64	66	68	70	72	74	76	78
80	82	84	86	88	90	92	94	96	98
100	102	104	106	108	110	112	114	116	118

Smooth gradient: banding shows up here first
